SUMMARY

React Front-End Developer with hands-on experience developing responsive and interactive web applications using **React.js**, **TypeScript**, and **modern JavaScript**. Experienced in building full-stack projects with **Laravel**, with a strong focus on **Clean Code**, **UI/UX design**, and **cross-browser compatibility**. Passionate about **AI-assisted development tools** and eager to contribute to innovative engineering teams."

Currently expanding my expertise through the Meta Front-End Developer Professional Certificate while building production-style React applications.

PROJECTS

- meta-front-end-developer-capstone**
<https://github.com/RoaaArbash/meta-front-end-developer-capstone>
This is the final capstone project for the Meta Front-End Developer Professional Certificate on Coursera. It showcases a fully responsive developer portfolio built with React, Chakra UI, Formik, and Yup.
- movie-explorer**
<https://github.com/RoaaArbash/movie-explorer>
Movie Explorer is a modern React.js web application that allows users to search for movies, explore detailed information, and manage a personalized list of favorite movies. The application integrates the OMDb API to fetch real-time movie data and demonstrates modern front-end development practices.
- Flower Shop Management System**
<https://github.com/RoaaArbash/store-project-laravel>

 - Built a Laravel-based management system with secure authentication.
 - Implemented AJAX live search for real-time customer filtering.
 - Developed role-based access control (RBAC).
 - Optimized MySQL queries using indexes and stored procedures.
- Coursera E-Learning Platform**
<https://github.com/RoaaArbash/coursera-elearning-platform>

 - Developed a responsive e-learning platform inspired by Coursera.
 - Built secure user authentication and registration.
 - Created an administrator dashboard for course management.
- Little Lemon Admin Dashboard**
<https://github.com/RoaaArbash/little-lemon-admin-dashboard>

 - Developed a modern React dashboard for restaurant management.
 - Implemented React Hooks (useState & useEffect) for efficient state management.
 - Added LocalStorage persistence to improve user experience.
 - Engineered a responsive restaurant management dashboard using React, reducing manual data entry tasks.

SKILLS

Frontend React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, DOM	Backend & Databases Laravel, PHP, MySQL, RESTful APIs
Tools & Others: Git, GitHub, VS Code, Unit Testing (Jest), AI-assisted tools	

CERTIFICATIONS

Meta Advanced React Certificate	Principles of UX/UI Design (In progress)
Programming with JavaScript	HTML & CSS in Depth
Version Control	Introduction to Front-End Development

EDUCATION

B.Sc. Information Technology Engineering Arab International University Expected Graduation: May 2028	09/2023 – 05/2028
